## 1. ABOUT US

### 1.1 BIOGRAPHY

Delta Energy Group was founded by two engineers in 2002.

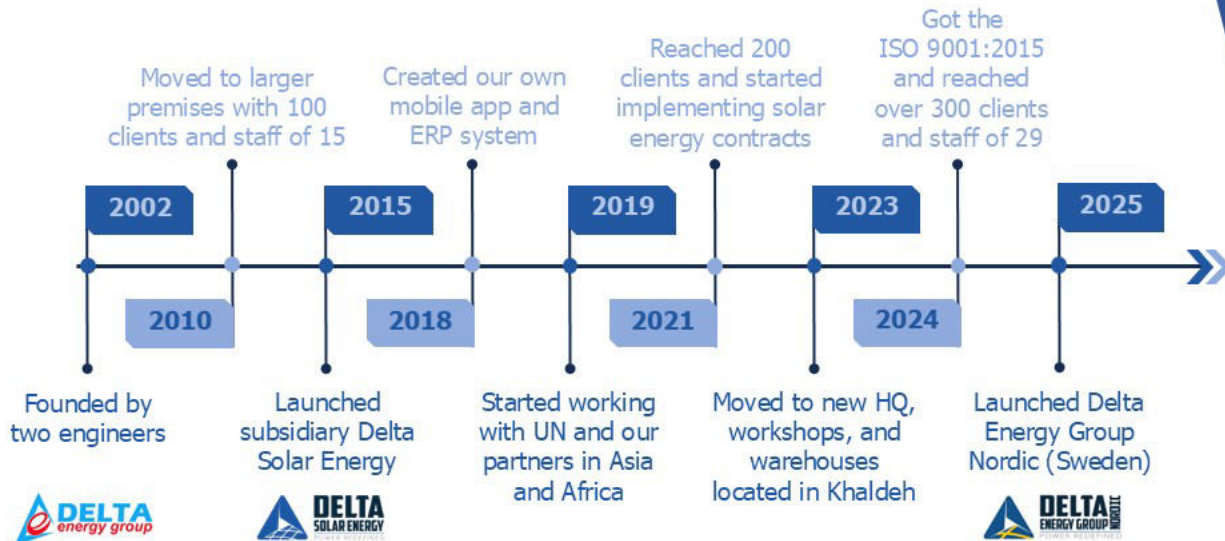

DEG continues its growth to reach high standards in the energy industry by providing:

- Energy management and demand solutions
- After sales support, preventive maintenance contracts, repair and emergency calls 24/7
- Engineering, procurement and construction (EPC) for power plants
- Synchro, ATS, PLC and electrical control panels
- New and used generator-sets
- Solar energy systems

For more than 300 clients all over Lebanon, Asia and Africa across various sectors.

# 1. ABOUT US

## 1.2 COMPANY TIMELINE

## 1. ABOUT US

### 1.3 VISION, MISSION & VALUES

**VISION:** Providing creative, innovative and premium power solutions at the best value.

**MISSION:** Earning the trust & loyalty of our customers in providing:

- Efficient, reliable & best solutions
- High-end after sales support and maintenance
- Top-quality operation, assets preservation and risk management

**VALUE:** Preservation, loyalty, social responsibility, transparency, commitment, and integrity

# 1. ABOUT US

## 1.5 CERTIFICATES & ACCREDITATIONS

Our company aims for continuous improvement, and this is achieved through the constant pursuit of international and national certificates such as ALMEE, Tamayaz, OEA, IRI, Bureau Veritas, LCEC and so much more.

# 1. ABOUT US

## 1.7 PREMISES

HQ

Warehouse &  
Workshop

## 2. OUR SERVICES

### 2.1 PREVENTIVE MAINTENANCE CONTRACT

The added values of our preventive maintenance contract are providing high-end after sales services and being proactive.

Customers can benefit from our:

1. Unlimited preventive maintenance visits and emergency calls 24/7 without any additional fees
2. Mobile application features

## 2. OUR SERVICES

### 2.2 REPAIR & AFTER SALES SERVICES

Our talented engineers, electrical and mechanical teams have the extensive experience to conduct the major overhauling and repair for all kinds and brands of:

1. Diesel generators up to 2000KVA
2. Electrical panels such as ATS, load sharing, synchro, etc.
3. Solar energy system such as on-grid, off-grid, grid-tie and hybrid

## 2. OUR SERVICES

### 2.3 PANEL BUILDER

Our team is certified for assembling & designing all kinds of electrical panels such as:

- Synchro
- ATS
- Load Sharing
- On-Grid System
- MDB
- MTS
- Earthing
- Customized Panel

## 2. OUR SERVICES

### 2.4 RENTING (VoltaCar)

For power needs in case of emergency or in remote area, VoltaCar provides the pioneer concept of "Green Energy on Wheels" anytime anywhere.

- Clean and quiet power supply
- Fully equipped with all safety measures
- For long autonomy demand, cars can be connected in parallel
- Low rent cost with high efficiency
- All data can be monitored remotely

## 2. OUR SERVICES

### 2.5 TRAINING & CONSULTING

#### ► Training

Our engineers are specialized in delivering high-quality tailored training sessions for our customers and interns.

#### ► Consultancy

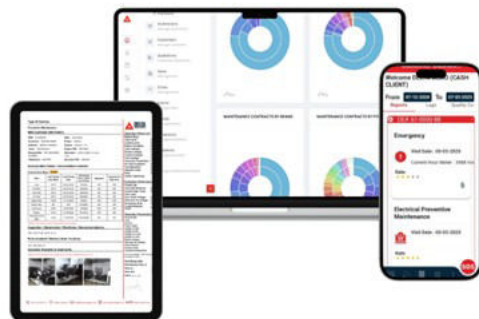

We provide expert energy consultancy services to help our customers in optimizing their energy usage, reducing energy bills and moving faster toward sustainable energy solutions.

### 3. DELTA ENERGY MOBILE APP

Welcome to the century of AI with “Delta Energy” mobile app. DEG mobile app assures a real time communication with your generator and our CRM and emergency team.

Main features include:

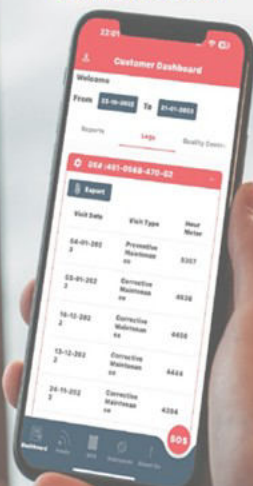

- Send SOS request
- Access visit reports, log files, SOA, etc.

We are one click away

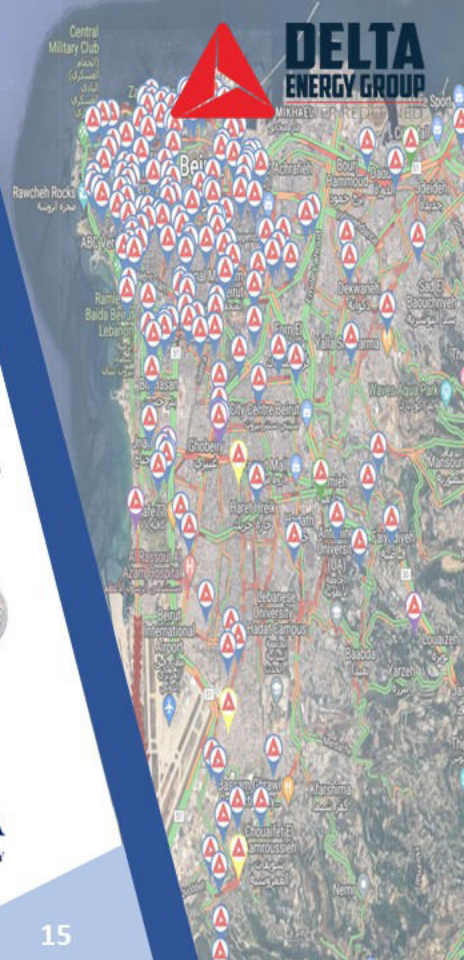

Download our APP

## 4. CLIENTS & RECOMMENDATIONS

DEG serves clients of different sectors such as residential and commercial buildings, hotels, hospitals, factories, food services, education, health care, banks and so much more.

DEG is also an approved supplier by the United Nations.

## 4. CLIENTS & RECOMMENDATIONS

DEG's hard work and commitment can be reflected through the recommendation letters received from many well-established companies.

## 5. LANDMARK PROJECTS

Today, Delta Energy Group serves and maintains over 150 MW of power generated by Diesel generator and solar energy power stations.

**Project Name:** Lebanese Golf Club

**Power:** 1MW

**Location:** Jnah

**Project consists of:**

- 2 Perkins + 1 John Deer + 1 Cummins generators
- Synchro system with on grid solar system + Step load + PLC controlled

## 5. LANDMARK PROJECTS

**Project Name:** Diplomax - LIU

**Power:** 3.7MW

**Location:** Salim Slem

**Project consists of:**

- 7 Cummins + 1 Perkins generators
- Load management system + Step load + PLC controlled
- Fire rated insulated generator's room with noise level less than 55dba

## 5. LANDMARK PROJECTS

**Project Name:** Beirut Tower

**Power:** 4.2MW

**Location:** Zaytouna Bay

**Project consists of:**

- 3 Cummins generators
- Synchro system + Load shedding + Step load
- Fire rated insulated generator's room with noise level less than 55dba

## 5. LANDMARK PROJECTS

**Project Name:** Raouche Views

**Power:** 2.5MW

**Location:** Raouche

**Project consists of:**

- 3 Perkins generators
- Synchro system with on grid solar system + Load shedding + Step load
- Fire rated insulated generator's room with noise level less than 55dba

## 5. LANDMARK PROJECTS

**Project Name:** Damac Tower

**Power:** 3MW

**Location:** Mina El Hosson

**Project consists of:**

- 3 Perkins generators
- Synchro system + Step load + Load shedding + PLC controlled
- Fire rated insulated generator's room with noise level less than 55dba

## 5. LANDMARK PROJECTS

**Project Name:** Arab Bank

**Power:** 2MW

**Location:** Solidaire

**Project consists of:**

- 2 Perkins + 2 Cat generators
- Synchro system + Step load
- Fire rated insulated generator's room with noise level less than 55dba

## 5. LANDMARK PROJECTS

**Project Name:** Obhur

**Location:** KSA

**Type & Power:** Hybrid 48kWp

**Project consists of:**

- 90 solar panels
- 2 inverters 50kW
- ESS 70kWh

## 5. LANDMARK PROJECTS

**Project Name:** UN / Mosan Center

**Location:** Burj Al-Shamali

**Type & Power:** Hybrid 24kWp

**Project consists of:**

- 40 solar panels
- 3 inverters 8kW
- ESS 30kWh

## 5. LANDMARK PROJECTS

**Project Name:** Marona Factory

**Location:** Batroun

**Type & Power:** Hybrid 28kWp

**Project consists of:**

- 48 solar panels
- 5 inverters 6kW
- ESS 45kWh

## 5. LANDMARK PROJECTS

**Project Name:** Hadchiti Station

**Location:** Ras El Dekwaneh

**Type & Power:** Hybrid 63kWp

**Project consists of:**

- 92 solar panels
- 5 inverters 12kW
- ESS 100kWh

## 5. LANDMARK PROJECTS

**Project Name:** EAU One Tower

**Location:** Clemenceau

**Type & Power:** On-Grid 25kWp

**Project consists of:**

- 40 solar panels
- 1 inverter 50kW

## 5. LANDMARK PROJECTS

**Project Name:** Le Blanc

**Location:** Khaldeh

**Type & Power:** Hybrid 28kWp

**Project consists of:**

- 48 solar panels
- 3 inverters 8kW
- ESS 75kW

## 6. PRODUCTS & CERTIFICATES

DEG provides open and closed Gen-sets ranging from 5KVA to 2000KVA, lubes, filters and needed genuine spare parts for maintenance and repair.

**VOLVO**  
**PENTA**

 **Perkins**<sup>®</sup>  
 THE HEART OF EVERY GREAT MACHINE

 **FPT**  
 POWERTRAIN TECHNOLOGIES

**Fleetguard**<sup>®</sup>  

 **LEROY**<sup>®</sup>  
**SOMER**

**STAMFORD**  
 power generation

## 6. PRODUCTS & CERTIFICATES

DEG provides all types of solar panels, inverters and batteries that comply with CE standards across countries in Europe, Asia and Africa.

Battery Rack Cabinet

Raython QS Series

Battery PS-10

Automatic Voltage Switch

Raython ALL-IN-ONE Integrated System

Inverter Riiro Sun II

Inverter Charger Tyrann

LUX-Power Eco hybrid inverter

Lithium Battery Storage nRuiT

E4 LCD Monitor

## 6. PRODUCTS & CERTIFICATES

DEG is an official distributor for:

- Eurol lubricants and Fleetguard filters
- TBB and LUX Power inverters and nRuIT and Uhome batteries.

LU X POWER<sup>TEK</sup>

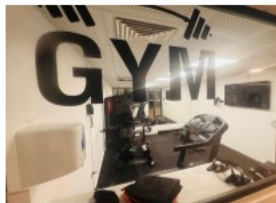

## 8. CSR-CORPORATE SOCIAL RESPONSIBILITIES

DEG commits to its social responsibilities seriously as it ensures a clean and safe environment for all of its employees. It operates on 100% solar energy and encourages recycling.

Employee's welfare and work life balance is another social obligation that is guaranteed in the company.

Workshops and training are organized regularly to highlight significant topics such as using fire extinguishers, first aid basics, and so on...

## 9. GREEN CONTRIBUTION & CUSTOMER SATISFACTION

- Based on 2024 customer satisfaction KPI we reached 100% overall satisfaction
- 4.2MWh projects executed by DEG contribute in 8.4MWh green energy daily production
- Carbon footprint reduction reaches 2.2MT of CO<sub>2</sub> equivalent to 840L of Diesel daily
